

Development of New Website for the Kerala School Education System

- Design and development of a modern, responsive, and user-friendly website for the Kerala school education system.
- Prepare a suitable website architecture, UI/UX design, and navigation structure.
- Develop the website to function efficiently across various devices including desktop, tablet, and mobile.
- Set up an appropriate Content Management System (CMS) to efficiently update and maintain the website's content.
- Provide the facility to integrate the Department of General Education's various existing digital services, portals, and applications with the website as required.
- Ensure technical requirements of the website such as security, accessibility, scalability, and performance.
- Design a new logo suitable for the Kerala school education system.
- Prepare a design theme usable for the website and associated digital platforms.

Detailed information regarding the requirements will be shared with the startups that submit the EOI.
