

Kerala Abkari Thozhilali Kshemanidhi Board

Kerala Abkari Labor Welfare Board has decided to develop a software to speed up and make the work of broad sheets more accurate. At the time of resignation/retirement of the workers registered with the Kerala Abkari Labor Welfare Board, the amount is allotted as per the broad sheet prepared during that period. Then, as soon as each broad sheet is completed, there is a method of allocating the PF balance each time. There is a delay in granting that. At present, broad sheeting is done through a computer (Excel). Therefore, the board is interested in developing software for preparing broadsheets.

Interested startups are requested to submit the EOI.
