

KCHR Website Redesign
Content Management System
(www.kchr.ac.in)

1. Dual Language Website (English/Malayalam)
2. Translate from one to the other – with editing option (if possible) to correct auto-translated contents
3. Multi-device and cross-browser compatibility
4. All features are available in the existing website
5. Admin dashboard with content management options –
 - i. Add/edit/delete and support entry for both languages
 - ii. Pages, Staff, Publication, Library, Projects, Menus (add/delete and rearranging), Events, Govt-related additions etc.

Home page

6. Fullscreen
7. Language Toggle
8. Search option on top (Site-wide search, with Malayalam support)
9. Announcement should be on the right side of the banner
ref: (<http://highereducation.kerala.gov.in/>)
10. Program Calendar – Right side of Top Projects
ref: <https://cds.edu/>
11. Main Category Creation and Removal (if needed, like top projects and others, and rearrangement via drag-drop or ordering)
12. Staff Profile – Additional similar pages needed (Options to add categories in the dashboard for the staff sections)
13. Similar Features in Old website like logo adding, scroll announcement, news and events, top projects etc.
14. News and Events – Date editing

2. For the Publication section

1. Books and description page -> continuous scroll
(https://kchr.ac.in/home/catalogue_book_descriptions.html)
2. Dynamic Page creation for cover page display of different types of publications – sliding window – link to the description page
3. All features available in the old website, like publication gallery, book description page, etc.
4. E-commerce for publication sales
5. Stock Maintenance

3. Library Section

1. New Arrivals (2 pages needed – one for Trivandrum and one for Pattanam)
Reference (<https://cdslibopac.informaticsglobal.com/>)
2. Library Catalogue – Online availability

4. Footer

1. Editing option for Main Headings with Rearrange setup
2. Facility to add new Main Categories (if suggested by the Government)
 - i. Can be below at the Main Setup

Ref for Footer Section of (<https://cds.edu/>)

5. Video (YouTube links) and Photo Gallery (upload – in a standard size)

- Complete data Backup from the old website and subdomains and migration to the new one
- Hosting on the State Data Centre (SDC) server.
- SSL, security hardening.
- Support for bugs, server errors, and troubleshooting post-launch.
- Compliance with accessibility and government standards.
- AMC (Annual Maintenance Contract) – Additional requirements if suggested by the government, and Periodic security updates
