

EXPRESSION OF INTEREST (EOI)

Website Revamping and Development for Clean Kerala Company Limited

OBJECTIVE

The objective of this EOI is to identify startups with the technical expertise and demonstrated experience required to develop and deliver a web application based on the requirements to be finalised by Clean Kerala Company Limited. The detailed functional, technical, integration, security and deployment requirements will be clarified by CKCL during subsequent interactions with participating startups.

SCOPE OF WORK

The indicative scope may include the following, subject to confirmation by CKCL:

- Requirement gathering and preparation of the application workflow and technical architecture.
- UI/UX design and development of a responsive web-based application.
- Front-end and back-end coding, database design and implementation of required modules.
- User authentication, role-based access and administrative functions, wherever required.
- Integration with third-party systems/APIs, if specified by CKCL.
- Testing, debugging, performance optimisation and security testing.
- Deployment in the hosting/infrastructure environment specified by CKCL.
- Documentation, knowledge transfer and user training, if required.
- Post-deployment warranty, maintenance and technical support as specified in the final requirement.
